

## Changing colours on a screen

- screen menu (press the menu button on the monitor itself)
- select colour settings
- Adjust these to the desired levels

## By colour management within Microsoft windows

- These options may be locked down – you would need to work with the Technical IT team to investigate whether a Dyslexia-friendly scheme is possible.
- <http://www.southernhealth.nhs.uk/workday/it/helpdesk/>
- You could also use coloured foils over the screen.
