

Coaching - Students In Practice

C-SIP

“Creating a coaching learning environment for all”

What

- What would you do...
- What could you do...
- What is preventing you
- What have you learnt about...

Why

- Why do you do that?
- Why is there a problem?
- Why do you want to do it?

Where

- Where could you go.....
- Where else does this occur....
- Where do we go from here?
- Where is the problem....

When

- When will you reach....
- When are you going to do this....
- When will you know.....
- When will you take the next step...

How

- How can you do.....
- How do you feel about....
- How are you approaching....
- How is that a problem?
